(3) Three years of mathematics, one of which must be Algebra I, ~~and~~ one of which must include geometry content, and one of which may be an Advanced Placement computer science course if the pupil successfully completes Algebra II or an integrated mathematics course with Algebra II content.

(f-5) If a school district offers an Advanced Placement computer science course to high school students, then the school board must designate that course as equivalent to a high school mathematics course and must denote on the student's transcript that the Advanced Placement computer science course qualifies as a mathematics-based, quantitative course for students in accordance with subdivision (3) of subsection (e) of this Section.
