DO YOU KNOW WHERE YOUR CHILDREN ARE

ONLINE

Talk it out. Ask your child...

- Where do you spend most of your online time?
- What's your favorite app or video game right now?
- Who do you game or communicate with most?
- How do you decide who gets to follow or friend you?
- Have you ever been a part of a group text?
- What do you share, post, download, upload and view?
- Can I review your profile with you?
- Why haven't you accepted my friend or follower request?
- What do you do if someone you don't know offline starts private messaging you or commenting on your posts?
- Your mood has suddenly changed. Who are you messaging?
- Why do you hide your electronic devices when I enter the room?

If your child answers "no" or doesn't want to discuss their online friends or activities, what is your next step?
