Terri Tchorzynski
2017 ASCA SCOY

LIFE 101: For Ourselves, and For Our Students Living Intentionally For Excellence - Rooms 25-30

"What really drives success is not 'genius' but a unique combination of passion and long-term perseverance." (Grit by Angela Duckworth)

Influence - Equity - Access - Advocate - Success. In the world of a school counselor, these are just some of the words that permeate our minds as we strive to help our students reach their full potential and discover the world in which they strive to achieve. I am sure we would all agree that these are not always easy tasks and at times it can feel as though not enough progress is being made, so I am here today to offer you a course called LIFE 101. This is a beginner level course because I am not going to say anything that you have not already thought or experienced at some point in your life. Sorry to tell you - I do not have a magic potion or trick to get students to be successful, but I do believe I have a passion and mindset to bring these special powers out in others. We all have them. As educators, and especially as counselors, we all have the gift and abilities to bring out the best in our students so they can find success. Sometimes - we just need a little reminder and a little influence to help us bring that out in ourselves so we can continue to be a champion for ALL students!

Bio:

Terri Tchorzynski is a Professional School Counselor at the Calhoun Area Career Center (CACC) in Battle Creek, Michigan, and has been named the 2017 National School Counselor of the Year by the American School Counselor Association (ASCA). Through a data-driven, comprehensive, and student-centered approach to school counseling, Terri and her team have received both state and national recognition. Behind Terri's leadership, the CACC's counseling department has been recognized by the Michigan Department of Education (MDE) for exemplary practices in college/career readiness, and was the second school in the state of Michigan to receive the nationally recognized achievement of being a Recognized ASCA Model Program. Terri has also been recognized as a Top Presenter for MDE's Career and Technical Education Conference, an Honorary Counselor by the Michigan School Counselor Association, as well as being named the 2016 Michigan School Counselor of the Year.

Terri started her career in education as a high school English teacher after obtaining her degree from Central Michigan University. She often draws on those experiences in the classroom to improve her practices as a school counselor when working with students, parents, teachers and administrators. Terri earned her Masters in School Counseling degree from Spring Arbor University and is in her 8th year as a school counselor at the CACC. Aside from the data-driven, comprehensive approach to school counseling, she attributes many of her successes as a school counselor to the relationships she builds with her students. Terri truly believes that building a trusting relationship with students is at the core of helping students find their success in life.
In her spare time, Terri loves spending time with her husband and two boys and enjoys working out, attending sporting events and spending as much time in the sun and beach that Michigan weather will allow.

Workshops and Presenters
April 20, 2018 Rosemont
Breakout Session 2: 10:10 AM - 11:10 AM

Room 21	**Resilience Can Be Taught! 10 Tools to Motivate ANY Student** *Christian Moore, MsW, LCSW* There are 10 tools that can help you foster resilience in ANY student, whether in one on one, small group, or classroom settings. This will give you skills to deliver resilience to students of all backgrounds and learning styles.
Room 22	**Power of Shame** *Ivy Malisow, M. Ed. and LCPC; Melissa Ockerman, PhD, Assistant Professor, DePaul University; Amelia Catania, M. Ed. School Counselor* From lunch lines to classrooms to playgrounds; schools are potential breeding grounds for feelings of shame in our students. This presentation will explore the impact of shame on students in both the academic and personal social domains. Additionally, participants will learn ways to intervene when shame is used by others.
Room 23	**Who Takes Care of the Caretaker When the Caretaker Can't Take Care?** *Ray Piagentini, M.S., M.A.* Self-care for counselors and healing techniques.
Room 24	**Motivational Interviewing for School Counselors** *Steve Murray, M.A., LPC, PEL; Lisa Micele, M.A., PEL* Motivational Interviewing (MI) has been used successfully with adolescents. Motivational Interviewing as defined by Miller and Rollnick (1991) is a directive, client-centered counseling technique for eliciting behavior change by helping clients explore and resolve ambivalence. MI may have viability in motivating adolescents in other realms of their lives such as college choice/or college major choice. Students may present to school counselors with a mixture of positive and negative feelings or thoughts (Saginak, 2003). Students may be excited when beginning to explore their options, but may be overwhelmed and anxious by the task. Anxiety pertaining to decision-making has been associated with career and/or college major indecisiveness and decision-making confusion. The five basic principles of MI are examined and suggestions for tailoring these principles to college choice/or college major choice will be offered.
Room 31	**Closing the Gap: Increasing the Presence of Low Income First Generation Latinos in Advanced Courses and in College Admissions** *Claudia Rueda-Alvarez, Assistant Principal for Student Services, Maine West High School, Ph.D. in Educational Psychology, M.A. in School Counseling, B.A. in Education; Tim Pappageorge, English Department Chair Maine West High School, Ed.D.* This workshop will discuss two programs which have proven successful in identifying and supporting Latino students in enrolling in advanced courses as well as attending colleges at higher rates. The differences between the two programs, the populations they aim to serve, curriculum, and data will be shared.
Room 32	**Supporting the Academic and Social/Emotional Needs of the Gifted and Talented** *Karen Schwartz, School Counselor, MA Community Counseling, LCPC and PEL School Counselor Certificate; Amy Keck, Learning Strategies Coordinator, MA Management Concentration in Higher Education Administration* We will discuss the social/emotional characteristics of the gifted and talented population and its impact on the students academically. Case studies will be reviewed and resources will be provided. Participants will leave with applicable interventions to implement immediately.
Room 33	**Creating a Culture of Excellence: Building a Curriculum and Recruiting Your Team** *Dr. Shelby Wyatt, School Counselor and Brotherhood Male Mentoring Coordinator, Ed. D; Elijah Young, Terrance Chambers, Elizabeth Comp, Brooks Reavill - Brotherhood Male Mentoring Interns* This will be a demonstration of the benefits provided by including qualified volunteer interns for school-based mentoring programs. We will review the Kenwood Academy Brotherhood's efficacy over the past 13 years.
Room 34	**A Real Alternative: CTE Ain't What it Used to Be** *Leah Brock, MA, LPC* The grant formerly known as Curriculum Revitalization is back. We specialize in connecting counselors and teachers with information and tools to enhance their knowledge of CTE fields.

Counseling Student Athletes, "In a League of Their Own"

Anthony Gliffe, Graduate Student - Counselor Intern, Bachelors in Special Education, Masters in School Counseling (June 2018) , Former NCAA Scholarship Student-Athlete,Presented at the Illinois African American Latino Higher Education Alliance through University of Illinois-Chicago. Northeastern Illinois University Student Symposium. Upcoming Presentations include Webinar through College Reading and Learning Association and Illinois Counseling Association. Successfully completed Therapeutic Approaches to Counseling Student Athletes and NCAA Online Summer Course through NACADA.

In today's society there is a major emphasis placed on athletics and competition in sports at the high school, college, and professional levels. Research shows that student athletes struggle with identity issues that manifest into other aspects of their lives. Their identities as student athletes may also impact their post-secondary college and career planning process.
